V.110

CAPT. W. M. EGAN,

*President of the Board of Trade of the City of Chicago:*

I have the honor to submit the accompanying Report of Trade in this City in Flour, Grain, Provisions, Lumber, etc., for the year ending March 31st, 1868.

The figures here given have been compiled from Reports furnished from the Custom House, Rail Roads, Elevators, and other sources, which present discrepancies in some cases very difficult to reconcile. They have been collated with the utmost care, and the results will be found to be as near correct as is attainable from the data

Trusting the Report may meet the approval of the Board,

I am, Sir,

Your obedient servant,

JNO. F. BEATY, *Secretary.*

CHICAGO, April, 1868.

# OFFICERS OF THE CHICAGO BOARD OF TRADE,

From April, 1867, to April, 1868.

OTTO HARTUNG, . . . . . Inspector of Highwines, Custom House.  
J. B. DARLING, . . . . . Weigh Master, 157 Washington Street.  
R. C. ROUNSAVELL, . . . . . Inspector of Cooperage.

## REPORT OF THE DIRECTORS.

---

GENTLEMEN OF THE BOARD OF TRADE:

In accordance with the rules of the Board, your Directors beg leave to submit herewith their Annual Report, showing the financial condition of the Board at the present time, and the doings for the past year.

The indebtedness of the Board on the 1st day of April, 1867, was..... \$1,829 05

There was received during the year as follows:

From Grain Inspection.....	\$49,592 20
From Annual Assessments .....	42,840 00
From Initiation Fees.....	1,335 00
From Table Rents.....	7,328 00
From Table Signs.....	19 00
From Second Clerks Tickets.....	90 00
From Arbitration Fees.....	795 80
From Appeal Fees.....	180 18
From Applications.....	80

And there has been paid out as follows:

For Deficit of last year.....	\$1,829 05
For Annual Reports.....	2,106 25
For Market Reports.....	4,939 29
For expenses including rent, salaries, heating, etc.....	32,137 41
For Grain Inspection .....	42,053 64
For Appeal Fees.....	116 02
For Arbitration Fees.....	678 75
For Legal Expenses.....	2,084 19
For Widow and Orphans Fund.....	1,000 00
Counterfeit Money.....	30 00
Now in hands of Secretary.....	10
Now in hands of Treasurer.....	15,285 48
Total	\$102,260 18 \$102,160 18

### MEMBERSHIP.

The membership of the Board for the last year was 1,224, being an increase over the year previous of 23, and in view of the slight increase your Directors deem it prudent to change the yearly assessment fee for membership from \$35 to \$30.

## GRAIN INSPECTION.

The subject of grain inspection is one that early attracted the attention of the Board and to it they gave their early and careful attention. Fortunately a bountiful crop of wheat, and of more than ordinary excellence, made this an easier task than we had dared to hope for. The rules of inspection established by the Board, which took effect August 1st, 1867, were faithfully carried out by our Chief Grain Inspector, and have, we believe, given general satisfaction.

There have been very few complaints in regard to inspection, the most serious coming from shippers to New York; and no claims have been made except from consignees after the property had reached its destination. Your Directors have carefully investigated such claims, and almost unanimously decided against them; and, to guard against such cases thereafter, they ordered the Chief Inspector to have the following clause printed in the certificate of inspection: "No claims for damage, arising from wrong inspection of grain, will be entertained by the Board, unless made before the vessel or car on which it is loaded leaves this port, and the matter is fully investigated by the Chief Inspector or by the Grain Inspection Committee."

We would earnestly recommend that no farther alteration be made in the rules of inspection of wheat. Heretofore it has been customary to make frequent changes in the inspection, which we believe to be wrong in theory. The grades should be permanent, and the crops should come up to the requirements rather than reduce the inspection to meet a bad crop. As frequent changes only tend to injure our market by leading foreign wheat buyers astray in purchasing by inspection, which, when once established on as good a standard as now, should be permanent.

## LUMBER INSPECTION.

The rules regulating the inspection of lumber, as referred to the Directors at the last annual meeting, were carefully examined, and with a single amendment were adopted and are now in force, and so far as we have learned have given entire satisfaction to all interested.

## THE BOSTON CONVENTION.

Pursuant to call from the Boston Board of Trade, a National Commercial Convention was held in the city of Boston on the 5th day of February, 1868. The convention was composed of delegates from the different Chambers of Commerce, Corn Exchanges, and Boards of Trade throughout the country—sound thinking men, who evidently felt the importance of the subjects they were to consider, as well as the probable influence the result of their deliberations and decisions would have upon public opinion and legislation. The objects discussed were:

*First*—The improvement of inland transportation, including rivers and canals.

*Second*—The restoration of our foreign trade and shipping interest, including the organization and subsidy of ocean steamship lines.

*Third*—The relief of our manufacturing and other great producing interests by reducing the burden of taxation.

*Fourth*—The adjustment of the National finances and currency upon a basis more favorable to stability in values, and the free movement of capital.

*Fifth*—The adoption of the cental or some other uniform system, for the measurement of grain.

*Sixth*—The speedy construction of the North Pacific Railroad.

*Seventh*—The organization of a National Board of Trade.

To these was added by a special resolution of the Convention :

*Eight*—The agriculture and manufactures of the country, and the promotion and protection of these great national interests.

The thoroughness of discussion upon the several subjects named, and the enlarged comparison of views and conflicting opinions on many points led to the adoption of reports covering the broad ground of general good to the whole, rather than for local advantages.

#### THE NATIONAL BOARD OF TRADE.

We feel the country is to be congratulated upon the prospect of the immediate organization of the National Board of Trade, for we believe that its general commercial benefits are not to be over estimated. The perfecting of the organization has been left with the Boston Board of Trade, which is sufficient assurance that in all its parts it will be thorough and complete. We would recommend that this Board of Trade arrange for the appointment of the number of representatives it may be entitled to in said National Board of Trade.

#### CONGRATULATION.

There have been removed from our midst by death but few members of the Board since our last annual report.

Your Directors congratulate the Board upon the prosperity of the Association and its members, and the business harmony and unanimity which has prevailed among them throughout the year.

Very respectfully submitted,

On behalf of the Directors,

W. M. EGAN, *President*.

# REPORT OF THE CHIEF INSPECTOR OF GRAIN.

---

CHIEF GRAIN INSPECTOR'S OFFICE.

*To the President and Directors of the Chicago Board of Trade :*

GENTLEMEN:—I beg leave to present you the Annual Report of this office due this day.

There has been inspected into store, Winter Wheat: No 1, 316 cars; No. 2, 42 cars; No. 3, 124 cars; Rejected 17 cars. Spring Wheat: No. 1, 5,385 cars; No. 2, 21,187 cars; No. 3, 5,516 cars; Rejected, 1,151 cars. Corn: No. 1, 6,619 cars; No. 2, 24,635 cars; New, 14,109 cars; Rejected, 5,829 cars. Oats: No. 1, 7,034 cars; No. 2, 9,727 cars; Rejected, 448 cars. Rye: No. 1, 2,125 cars; No. 2, 1,074 cars; Rejected, 100 cars. Barley: No. 1, 12 cars; No. 2, 3,348 cars; Rejected, 1,341 cars, making the total number of cars of grain inspected into store, 110,518 cars.

Of Canal Grain there has been inspected into store, Winter Wheat: No. 1, 41,678 bushels; No. 2, 6,100 bushels. Spring Wheat: No. 1, 67,150 bushels; No. 2, 9,300 bushels; No. 3, 38,312 bushels; Rejected, 700 bushels. Corn: No. 1, 936,890 bushels; No. 2, 3,518,981 bushels; New, 84,150 bushels; Rejected, 1,786,589 bushels. Oats: No. 1, 19,500 bushels; No. 2, 1,096,000 bushels; Rejected, 37,200 bushels. Rye: No. 1, 7,525 bushels; No. 2, 9,000 bushels; Rejected, 1,774. Barley: No. 2, 5,000 bushels; Rejected, 17,000 bushels, all of which was contained in 1,449 boats.

For financial results, I beg to refer you to Profit and Loss account for the year.

The Inspectors of your Board desire to present to you, and through you to the members of this association, our assurances of respect for that uniform kindness and courtesy which has distinguished your intercourse with this office.

Very respectfully your obedient servant,

O. L. PARKER,

*Chief Inspector.*

# GRADES OF GRAIN AND RULES OF INSPECTION

ADOPTED BY THE

BOARD OF TRADE OF THE CITY OF CHICAGO,

AND TO TAKE EFFECT ON THE FIRST DAY OF AUGUST, 1867.

---

## WHEAT.

### WINTER WHEAT.

No. 1 WHITE.—To be pure white winter wheat, sound, plump, and well cleaned.

No. 2 WHITE.—To be pure white winter wheat, sound and reasonably clean.

No. 1 RED.—To be pure red winter wheat, sound, plump, and well cleaned.

No. 2 RED.—To be pure winter wheat, red, or red and white mixed, sound, and reasonably clean.

No. 3.—To include inferior or dirty winter wheat, but not so badly damaged as to render it unfit for flouring, not weighing less than 55 lbs.

REJECTED.—All winter wheat so badly damaged from any cause as to render it unfit for No. 3.

### SPRING WHEAT.

No. 1.—To be sound, plump, and well cleaned, good milling wheat.

No. 2.—To be reasonably clean, and free from other grain, and such as will make sound flour.

No. 3.—To include inferior or dirty spring wheat, but not so badly damaged as to render it unfit for flouring, and not weighing less than 54 lbs.

REJECTED.—All spring wheat so badly damaged, from any cause, as to render it unfit for No. 3.

In case of mixture of spring and winter wheat, it will be called spring wheat and graded according to the quality thereof.

Black Sea and Flinty Pife wheat in no case will be inspected higher than No. 2, and Rice wheat no higher than No. 3.

All hot grain arriving here will not be graded.

## CORN.

WHITE.—To be white, and in all other respects to be No. 1 corn.

YELLOW.—To be yellow, and in all other respects to be No. 1 corn.

No. 1.—To be sound, dry, plump, and well cleaned.

No. 2.—To include all other corn, dry and merchantable, and reasonably clean.

REJECTED.—All wet, very dirty, hot, and otherwise badly damaged corn, unfit for warehousing.

## OATS.

No. 1.—To be sound, free from other grains, and well cleaned.

No. 2.—All other oats not unmerchantable.

REJECTED.—All oats unsound, or from any cause unmerchantable and unfit for warehousing.

## RYE.

No. 1.—To be sound, plump, and well cleaned.

No. 2.—All rye not included in No. 1, that is not, in the judgment of the Inspector, unmerchantable.

REJECTED.—All unsound rye, that from any cause shall be deemed unmerchantable and unfit for warehousing.

## BARLEY.

No. 1.—To be plump, bright, sound, clean, and free from other grain.

No. 2.—To be reasonably clean, and sound, but not bright or plump enough for No. 1.

REJECTED.—All barley that from any cause is unsound, or largely mixed with other grain.

---

## RULES.

All Inspectors must make their reasons for grading grain, when necessary, fully known by notations on their books.

All wheat is to be weighed, and the weight entered on inspection book.

At a meeting of the Board of Directors of the Chicago Board of Trade, the following recommendations were adopted as Rules of the Board.

*First*—That all grain arriving in bulk be inspected and received into the house for such grade only as the Inspector shall decide, except when sold on the track for grinding, city consumption or shipment, and the Inspector shall in no case make the grade above the lowest quality found in any lot of grain, when it has evidently been mixed or “doctored” with a view of changing the grade, and that our warehousemen be requested to refuse all bagged grain which shall have been bagged for this express purpose, and that all our railroad companies be requested to prohibit all bagging on their tracks, except for local consumption or shipment.

*Second*—That it be made the duty of all Inspectors of grain to report to the Inspection Committee all attempts to defraud our inspective system. They shall report in writing every instance when warehousemen deliver or attempt to deliver grain of a lower grade than that called for by the warehouse receipt. They shall also report any and every attempt of a receiver or shipper of grain improperly to instruct or in any way influence the action or the opinion of the Inspectors, and also all other attempts to defraud the Inspection system, and when the charges shall be sustained, it shall be the duty of the Inspection Committee to put the same on the bulletin board of the Exchange Rooms.

It shall be the duty of the Chief Inspector to keep a record of the weight of grain inspected into and out of each warehouse, which record shall be open to the inspection of any member of the Board during business hours, and that he report daily the average weight of the receipts and shipments of each grade into and out of each warehouse, which report shall be posted on the bulletin board.

CHICAGO, July 19, 1867.

# CLASSIFICATION OF FLOUR

## AND RULES OF INSPECTION

ADOPTED BY THE

[BOARD OF TRADE OF THE CITY OF CHICAGO.

---

*First.* SOUND.—To be strictly sound, free from any and every defect or fault causing either smell or taste.

*Second.* WEEDY. Flour made from Wheat that has come in contact with a noxious weed, imparting an unpleasant smell, which is supposed will cook out.

*Third.* UNSOUND.—All Flour not “Sound” or “Weedy,” whether the unsoundness is derived from the condition of the wheat, or has originated in the Flour. The Inspectors are required to note on their certificates the character of the unsoundness, such as *musty*, *hard sour*, *soft sour*, or *slightly unsound*,—the latter explanation of the unsoundness being intended to indicate that the Flour will probably work sound for immediate use, and is slightly depreciated in value.

All Flour that inspects “Sound” and full weight shall be branded, and none other; except when part of the lot of “Extra” proves so far below sample as to be a clearly different grade, the Inspectors may omit branding the barrels that are below grade; and it shall be the duty of the Inspectors, when working to a sample, to state on their certificate the number of barrels above or below the sample, and have the sample or samples of the same, which the parties may examine; also to state on their certificate, when the flour is “unsound” or “weedy,” the number of barrels of each description, and also, when practicable, the number of barrels that are so stained or out of condition as to depreciate the market value of the Flour. When Flour has been overhauled and cleaned on account of being wet, the Inspectors shall note on the certificate “wet and cleaned,” either “by Inspectors” or “by Owner,” as the case may be. The Inspectors shall satisfy themselves in regard to the weights, and in case they deem it necessary to strip some of the Flour, they shall be entitled to “twenty-five (25) cents for each barrel so stripped (if it proves to be short weight) in addition to the regular fee of two cents per barrel for inspecting and branding. The charge of stripping shall be paid by the seller. No certificate shall be issued for a part of a lot of Flour inspected, without the consent of both the buyer and seller. The Inspectors shall only be liable to damage for any discrepancy between the Flour for which a certificate is issued and the sample which they retain of Flour so inspected, unless the buyer hands them the sample to inspect by.

*Rules for the Adjustment of Short Weight of Flour, in the absence of any special understanding between buyers and sellers.*

*First.*—Flour shall be sold on the basis of one hundred and ninety-six pounds to the barrel.

*Second.*—In case of short weight, the buyer shall be allowed for such shortage at the rate he pays, and three-fourths of a cent per pound on same for freight, and in addition five (5) cents per barrel for the expense of refilling.

CHICAGO, May, 1865.

## INSPECTION OF PROVISIONS.

---

### DIRECTIONS FOR CUTTING, PACKING AND CURING PORK AND BEEF, AND RULES REGULATING THE SALE OF THE SAME.

The following rules for examination and inspection of provisions, as adopted by the Pork Packers' Association, have also been adopted by this Board:—

**EXAMINATION.**—To provide for the examination of provisions sold as “standard,” it shall be the duty of the Inspector, on receiving notice, to go to any packing-house or warehouse in the city, to examine provisions in such quantities as may be required; selecting the same in such a manner from the lot specified, as in his judgment will give a fair sample of the whole. If, upon examination, it is found in all respects up to the standard, according to classification of grades herewith adopted, he shall issue certificate to that effect.

When necessary to remove property for the convenience of examination, it shall be the duty of the Inspector to send for the same, that a fair sample may be obtained. In no case shall a certificate be granted on samples delivered by the seller.

The Inspector shall keep a record, in detail, of every examination he may make, that he may be qualified to testify positively in the event of a dispute; and should any portion, by examination or inspection, at or previous to time of removal from place of sale; prove to be different in character, the seller shall be responsible for difference.

The Inspector shall be entitled to receive, as compensation for examining provisions, five dollars (\$5.00) for the first five barrels, and twenty-five cents for each additional barrel examined, payable by the buyer if “standard,” and by the seller if rejected—and cartage, when removed.

**INSPECTION.**—It shall be the duty of the Inspector, as requested by owner, either at any packing-house, warehouse, or in yards provided by the Inspector, to overhaul and inspect provisions according to the classification and quality authorized for standard packing; two hundred pounds of meat, with abundance of salt, to be repacked into each barrel, and cooperage to be put into good order; each barrel of provisions that is sound, sweet and free from every defect, to have grade and date of inspection branded thereon, and any portion that is defective, to be branded, in like manner, “rusty,” “sour,” or “tainted,” as the case may be, across the regular inspection brand.

**MESS PORK.**—Shall be packed from sides of well fattened hogs, cut in strips not exceeding six and a half ( $6\frac{1}{2}$ ) inches wide, and flanked according to diagram, as nearly as possible, and not back strapped; 196 pounds of green meat, numbering not over sixteen pieces, including only the regular proportion of flank and shoulder cuts. Four layers to be packed into each barrel, with not less than 40 pounds Turks Island, St. Ubes, or Trepanni, or 45 pounds of other good qualities of foreign or domestic coarse salt, and clear brine as strong as salt will make it. (*See Plate No. 1.*)

**CLEAR PORK.**—Shall be packed from sides of extra heavy, well fattened hogs, cut, selected and packed in the same manner as Mess Pork. The backbone and half the rib next the backbone to be taken out.

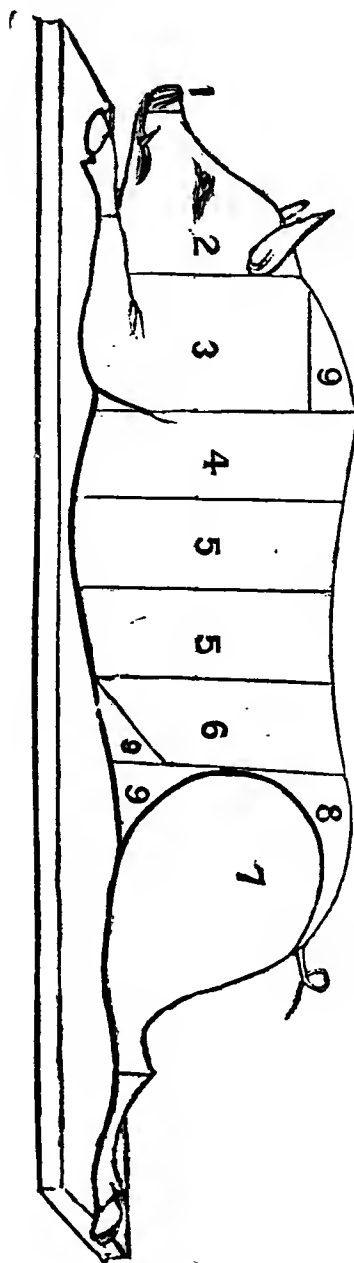

**EXTRA CLEAR PORK.**—Same as clear, except that all the rib and backbone must be taken out.

**MESS ORDINARY, OR THIN MESS.**—Of hogs reasonably well fattened, too light for Mess Pork, cut, selected and packed in the same manner as Mess. No restriction as to the number of pieces to the barrel.

**RUMP PORK.**—Rumps should be trimmed with only enough taken off to make them neat and smooth; the tail cut off close. Each barrel to contain 200 pounds of green meat packed with the same quantity and quality of salt as Mess Pork.

PLATE NO. 1.

No. 1, Snout.  
No. 2, Head.  
No. 3, Shoulder.  
No. 4, Shoulder Cut.  
No. 5, Middle Cut.

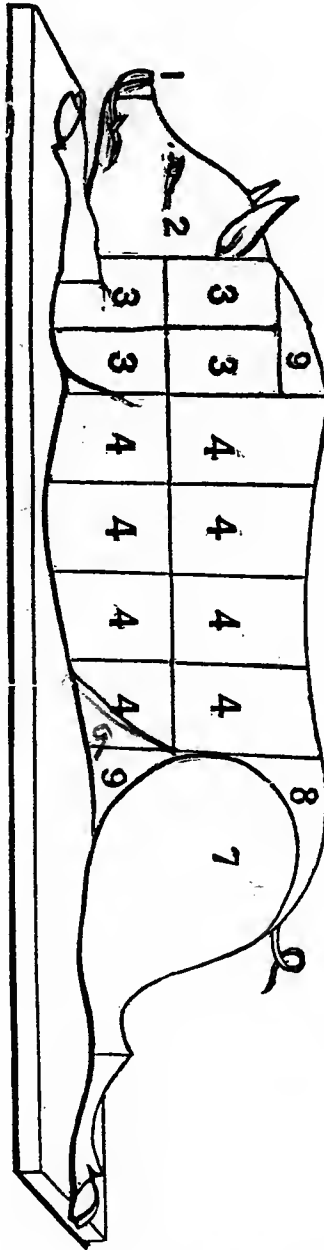

No. 6, Flank Cut.  
No. 7, Ham.  
No. 8, Rump.  
No. 9, Lard.

**PRIME PORK**—Shall be packed with a header of side cuts, the regular width, three half heads. It may have three rumps, and the balance shoulder cuts. The shoulder should have the rib in them, and cut into three pieces each, according to the diagram, the foot to be cut off above the knee, and the shank cracked near the shoulder. Head to be split through the brain and tongue; snout and ears cut off, and brains removed. Each barrel to contain 200 pounds of green meat, and to be packed with the same quantity and quality of salt as Mess Pork; heads to be soaked before being packed.

## PLATE NO. 2.

No. 1, *Snout*.  
 No. 2, *Head*.  
 No. 3, *Shoulder Piece*.  
 No. 4, *Prime Piece*.

No. 7, *Ham*.  
 No. 8, *Rump*.  
 No. 9, *Lard*.

**EXTRA PRIME PORK**—Shall be made from heavy, untrimmed Shoulders, cut into three pieces, according to the diagram; the leg to be cut close to the breast, to be packed 200 pounds green meat into each barrel, with the same quantity and quality of salt as Mess Pork.

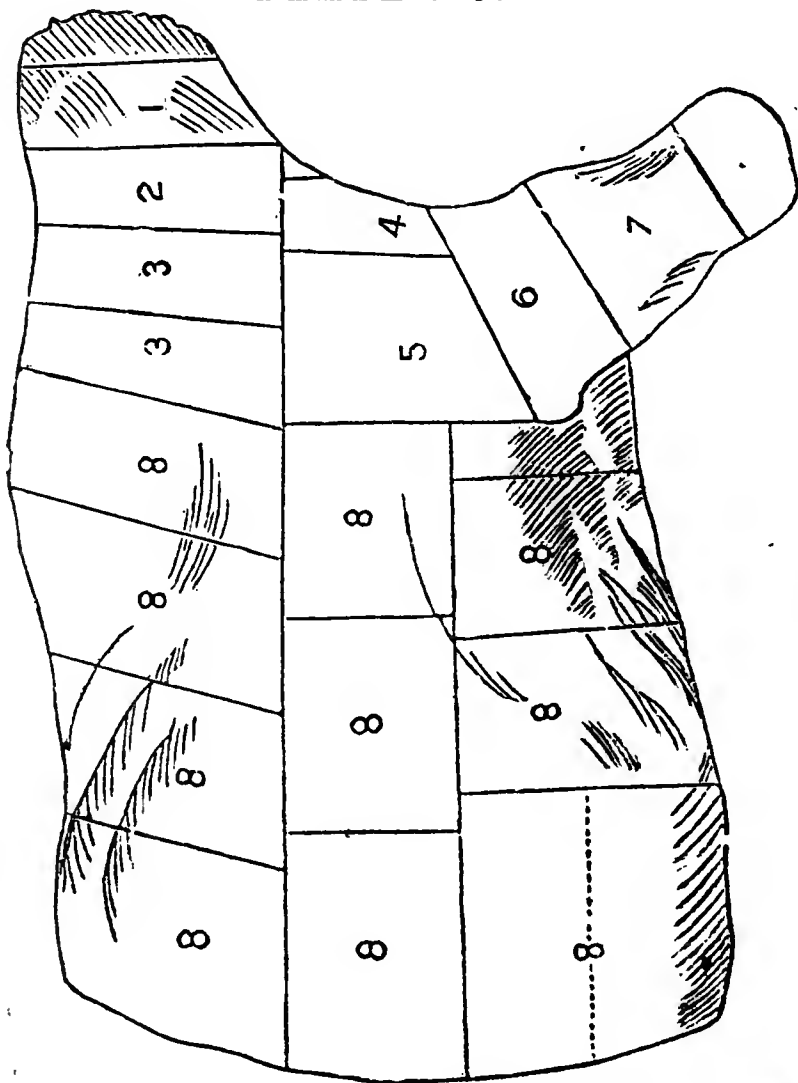

**PRIME MESS PORK**—Shall be made of the shoulders and sides of nice, smooth fat hogs, weighing from 120 to 170 pounds each, net, regurally cut into square pieces, as near four pounds each as possible, the shank to be cut off close to the breast, each barrel to contain 200 pounds green meat, in proportion of twenty pieces of shoulder and thirty pieces of side cuts, and to be packed with the same quantity and quality of salt as Mess Pork, with the addition of four ounces of saltpeter. The prime pieces shall be cut free of the blade bone. The shoulder pieces not to exceed ninety pounds to each barrel. It may also be packed with twenty pounds (20 lbs.) Turke Island, St. Ubes or Trepanni, or twenty-five pounds (25 lbs.) other good domestic or foreign coarse salt, and shall pass as "Light Salted Prime Mess Pork," provided it is in all other respects cut and packed as full salted Prime Mess Pork.

When re-salted, the brine shall be drawn off and new brine added.

(See Plate No. 2.)

**PICKLED HAMS AND SHOULDERS.**—The number of pieces, and green weight, must be branded on the head of each tierce.

PLATE NO. 3.

No. 1, Neck.

No. 2, Leather Chuck.

No. 3, Chuck.

No. 4, End of Sticking Piece.

No. 5, Shoulder of Mutton.

No. 6, Shoulder Clod.

No. 7, Shin.

No. 8, Mess Pieces.

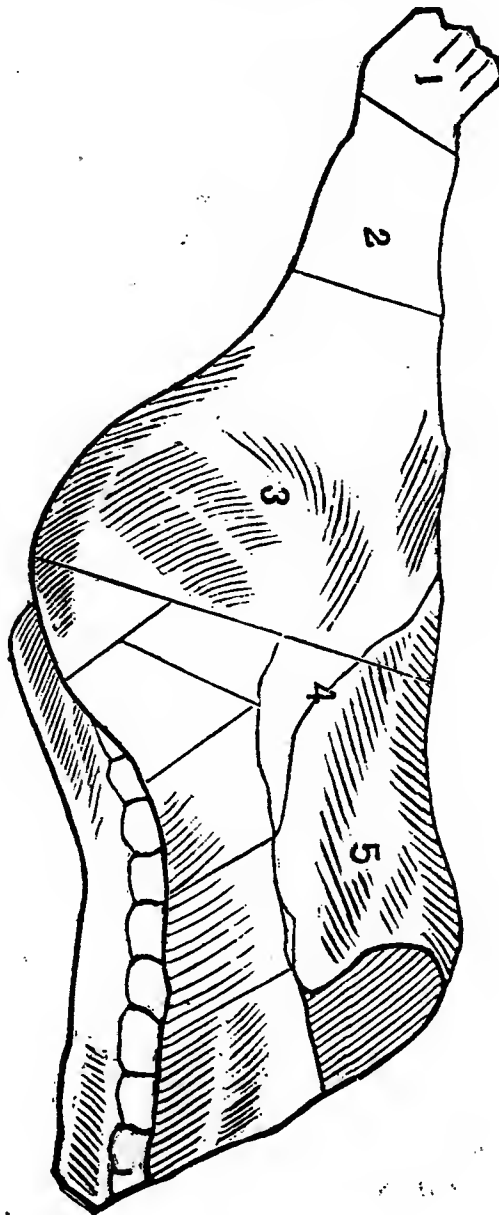

The dotted line in the diagram indicates that the flank piece is not to be cut entirely through, but only sufficiently to allow it to fold so as to present a thick appearance.

**MESS BEEF**—Shall be packed from well fattened cattle, weighing 450 pounds and upwards, net, and cut as near 10 pound pieces as practicable, excluding the legs and rand of the hind quarter, shin and shoulder clod, and 8 pounds of the neck from the fore quarter; and shall be packed in regular provision packages, with at least twenty pounds of coarse Turks Island, St. Ubes, Syracuse, Treppanni, or other good coarse salt, with at least four ounces saltpeter, and pickle as strong as salt will make it. (*See Plate No. 3.*)

**EXTRA MESS BEEF**—From well fattened cattle, shall be cut and packed the same as Mess Beef, from cattle weighing 500 pounds and upwards, net. (*See Plate No. 4.*) The cooperage in all cases to be of good and well seasoned material, and in good condition. The date of packing to be branded on the head of each of the above qualities of Pork and Beef.

## PLATE NO. 4.

*No. 1, Leg.*  
*No. 2, Leg Rand.*  
*No. 3, Round.*

*No. 4, Thick Flank.*  
*No. 5, Thin Flank.*

**RULES OF SALE.**—All barreled provisions offered for sale as “standard,” in this market, must be cut, selected and packed, in all respects, as to quality and condition, equal to the foregoing classification.

Unless otherwise stipulated, at all sales made of any of the above grades of provisions represented as “standard,” the seller shall be bound to fulfil his sale by the delivery of the quality called for by such sale, which, on examination by the Inspector of the Association, has been certified by him to have been packed according to the above classification, and is, at the time of sale, in good, merchantable condition in every respect, and has sufficient salt in each barrel to preserve the meat for a reasonable time. Provisions from which any surplus weight has been removed, cannot afterwards be classed as standard.

Any sales by which a particular packer’s brand is named, which does not pass examination, the buyer shall then elect, at his option, either to take the lot named at price agreed upon, after being regularly inspected at cost of seller, or to require that some other standard brand be substituted. But the buyer shall receive either the one or the other.

**COOPERAGE.**—There shall be appointed by the Association an Inspector of Cooperage, who shall inspect all provision cooperage submitted to him according to the following standard:

Beef and Pork Barrels shall be made of thoroughly seasoned White Oak lumber, free from objectionable sap; staves not less than  $\frac{1}{2}$  inch thick and 29 inches long; heads 18 inches,  $\frac{5}{8}$  of an inch thick in center, and  $\frac{3}{8}$  at bevel; hoops, Hickory or White Oak; barrel not less than 11-16 covered.

Tierces for Hams, Beef or Lard, 32 inches long, 20 $\frac{1}{2}$  inch head; quality of staves and hoops same as on barrels; staves not less than  $\frac{5}{8}$  thick; heads same as Pork barrels—hooped, 11-16 covered.

**INSPECTORS’ FEES.**—Inspectors’ Fees, two cents for each barrel or tierce, payable by seller.

**WEIGHTS AND TARES.**—In the absence of agreement to the contrary, the following rules shall govern weights and tares:

Pickled Hams and Shoulders—one per cent. to be allowed for drainage.

Bulk Meats—salt being struck off but not swept, one per cent. tare to be allowed.

Lard—actual tare to be allowed.

# RULES REGULATING THE INSPECTION OF LUMBER

ADOPTED BY THE

BOARD OF TRADE OF THE CITY OF CHICAGO,

1867.

---

## I. FIRST CLEAR.

Not less than twelve (12) inches in width, and no imperfections allowed, unless fourteen (14) inches wide or upwards. Will then allow imperfections equal to sap one (1) inch on one side, extending the whole length of the piece, on pieces fourteen (14) inches wide and well manufactured, but the face side must be perfect. As width increases will allow larger imperfections in proportion to the width, but not imperfections enough to decrease the value below the above described piece.

## II. SECOND CLEAR.

Not less than ten (10) inches in width, and perfect up to twelve (12) inches wide. Will then allow imperfections equal to sap one (1) inch on one side of the whole length of the piece, if well manufactured—face side perfect. As width increases will allow other or larger imperfections in proportion to the width, but not imperfections enough to decrease the value below the above described piece.

## III. THIRD CLEAR.

Not less than ten (10) inches in width, of poorer grade than second clear, but of more value than common. Lumber that can be cut up for use one-half clear. The imperfections in this quality should not exceed 50 per cent. over those allowed in second clear.

All lumber from  $1\frac{1}{4}$  to 2 inches thick, and from 8 to 10 inches in width, and strictly clear, shall be classified with this grade.

## IV. CLEAR FLOORING.

To be one and one-sixteenth ( $1\frac{1}{16}$ ) inches thick, six (6) inches wide, and no imperfections. Clear flooring, rejected on account of thickness, shall be classed with common flooring.

## V. SECOND CLEAR FLOORING.

To be in thickness and width same as clear flooring, and will allow of one small knot or sap half ( $\frac{1}{2}$ ) an inch on one side, with clear face.

## VI. COMMON FLOORING.

Should be six (6) inches in width, and one and one-sixteenth ( $1\frac{1}{16}$ ) inches thick. Width uniform; small sound knots; free from rot shakes and splits. Second clear and common flooring, rejected on account of thickness, shall be classed as common lumber.

## VII. CLEAR SIDING.

MILL SAWED.—To be plump half ( $\frac{1}{2}$ ) inch thick, six (6) inches wide, and no imperfections.

## VIII. SECOND CLEAR SIDING.

MILL SAWED.—Will allow of one small knot, size of a dime, or sap one (1) inch in width on one edge. Thickness and width same as clear siding.

## IX. COMMON SIDING.

MILL SAWED.—The same as clear siding as regards thickness and width. The piece not to allow of over six (6) small knots, size of a dime, or sap not to exceed two inches on one edge, or knots in proportion to sap.

## X. COMMON LUMBER.

Including all boards, plank, joist, scantling, timber, fencing, and 4 and 5 inch strips, that are of a general sound character, well manufactured, and not included in foregoing qualities. Boards and planks should be square edged on one side at least, plump thickness, and have no large, loose knots nor bad shakes. In wide boards—say twelve (12) inches and over—will allow a straight split one-sixth ( $\frac{1}{6}$ ) the length of the piece, when otherwise sound. Fencing should be of good sound character; pieces that will not break easy, six (6) inches wide, one and one-sixteenth inches in thickness. Scantling, joists and timber should not have imperfections that would weaken the piece so that it cannot be used for substantial building purposes—plump and uniform in width and thickness. Timber should be measured at the small end, and, if much wane on the piece, reasonable allowance made for it.

## XI. CULLS.

A quality that cannot be received into any of the foregoing, consisting of even lengths of ten (10) feet and upwards, and so imperfect as not fit for any ordinary uses without waste.

## XII. MILL CULLS.

Worthless or refuse lumber.

## GENERAL REMARKS.

All tapering pieces of lumber to be measured one-third ( $\frac{1}{3}$ ) the distance from the narrow end, when twelve (12) inches and over in width at the center, and when less than twelve (12) inches wide in center, to be measured at the narrow end. Any fractional part of a foot of lumber, board measure, shall not be counted, except in scantling and joist. All lumber to be measured in even lengths (except culls), from twelve (12) to thirty (30) feet, inclusive, in length; and above that length, timber shall be counted for what it will measure.

Culls commence ten (10) feet in length, and then measure same as other qualities. The manufacture should be taken into consideration in all qualities, and, if badly manufactured, should reduce the grade.

Pieces of lumber that have augur holes near the ends should be measured for length between the holes, if twelve (12) feet and over, and what it so measures to be called in its proper quality; if augur holes in the center, as well as at the ends, should go into culls and be measured full.

Norway pine lumber shall not be included in the clear qualities of the above rules.

## XIII. STRAIGHT MEASURE.

All cargoes sold under straight measure shall consist of well manufactured lumber twelve feet and over, and where, by imperfection of manufacture, such lumber is reduced in grade so as not to answer the purpose for which it was intended, it shall be measured at only one-half the amount in the piece; and all pieces containing augur holes, if fourteen (14) feet in length and over, and bored only at the ends, shall be measured in full, excluding two feet in length of the piece; if bored in the center, it shall be measured for only one half the amount in the piece. All lumber less than twelve (12) feet to be a subject of special contract between the parties.. Mill culls excluded in all cases. All boards and strips to be at least plump one inch thick. Joists and scantling, plump two or three inches thick.

## XIV. SHINGLES.

PINE OR CEDAR—SAWED OR SHAVED.

*Warranted A*—Shall be sixteen (16) or eighteen (18) inches in length, not less than three-eighths ( $\frac{3}{8}$ ) of an inch thick at the butt, and none less than three (3) inches in width; all perfect.

*No. 1*—Shall be sixteen (16) or eighteen (18) inches in length, not less than one-third ( $\frac{1}{3}$ ) of an inch in thickness; may admit of forty (40) shingles in M., if perfect, less than three (3) inches in width, or same number of clipped—clips not to exceed three (3) inches. All shingles to be smoothly sawed or shaved, and packed in good order.

*Culls* are a quality manufactured from winding, worm-eaten, shaky, or dry-rot timber badly manufactured, or less than sixteen (16) inches in length.

It is recommended that one-fourth ( $\frac{1}{4}$ ) M. bunches be packed in bands twenty (20) inches in length, with twenty-five (25) courses; one-half ( $\frac{1}{2}$ ) M. bunches in twenty-five (25) inch bands, with forty (40) courses.

Shingles shall always be full count, and pay shall be collected only for the number of shingles actually delivered, regardless of the pretended number contained in each package or bundle; or, in other words, there shall be exacted in every instance, for a thousand shingles, the equivalent of one thousand pieces four inches wide.

## XV. LATH.

*No. 1*—Shall be four (4) feet (no more, no less) in length, not less than three-eighths ( $\frac{3}{8}$ ) of an inch thick, and one and a half ( $1\frac{1}{2}$ ) inches wide, free from shakes, rot, wane or worm-holes.

*No. 2*—Same length as No. 1, may be less than three-eighths ( $\frac{3}{8}$ ) of an inch thick, and must be not less than one and a quarter ( $1\frac{1}{4}$ ) inches wide, will admit of wane and worm-holes not to exceed ten pieces in a bundle of one hundred.

*Culls*—All that will not pass in the above qualities.

---

RESOLUTIONS OF THE BOARD.

---

*Resolved*, That it is the intention of the Board that these Rules of Inspection shall apply only to the selling and buying of lumber afloat or unassorted, and not to yards selling to the trade and to consumers generally, unless otherwise provided by special agreement between parties.

*Resolved*, That all Inspectors who inspect lumber under the foregoing rules in this market, shall mark the quality and quantity upon all lumber so inspected, when required by either buyer or seller.

*Resolved*, That the following fees be paid Inspectors for inspecting, measuring and tallying lumber under the foregoing rules, to-wit: 25 cents per 1,000 feet for measuring and tallying one quality; 30 cents per 1,000 feet for measuring, tallying and inspecting two qualities; 35 cents per 1,000 feet for three or four qualities, and 40 cents per 1,000 feet for more than four qualities, with the addition of 5 cents per 1,000 feet for marking the quantity and quality of the lumber when required.

*Resolved*, That in no case shall mill culls be considered a quality for the purpose of increasing the inspection fee.

*Resolved*, That the cost of measuring, tallying and inspecting shall be paid equally by buyers and sellers.

*Resolved*, That it shall be the duty of Inspectors and Measurers to keep the original tally sheet at least for one year, and that said tally sheet shall at all times be accessible to any of the parties interested therein. A denial by any Inspector to exhibit such sheets, when called upon by any of the parties interested, or any of the members of the Inspection Committee, shall be deemed a sufficient cause for a revocation of his appointment certificate.

*Resolved*, That Inspectors and Measurers shall in all cases employ competent Tallymen, and that they should call out in quantities not over 60 feet, (in ordinary cases,) and be answered back by their Tallymen distinctly.

*Resolved*, That if any Inspector shall make out his certificate of inspection or tally, and return the same as correct, and it shall be afterwards found incorrect, said Inspector shall be liable for all losses and damages accruing from such error to the parties interested.

*Resolved*, That Inspectors be required to draw twelve shingles from each end of each half thousand bunch, and six from each end of each quarter thousand bunch. That he be paid therefor 10 cents per 1,000, and required to put his brand on each bunch. That Inspectors be paid 5 cents per 1,000 for inspecting lath, according to the inspection rules adopted. For counting shingles without inspection the fee shall be 3 cents per 1,000. For counting lath without inspection the fee shall be 4 cents per 1,000. The inspection of these articles to be paid for as provided with regard to the inspection of lumber.

*Resolved*, That certificates for measuring lumber be granted to parties qualified, who may not be qualified as Inspectors.

*Resolved*, That Inspectors and Measurers be directed not to *intrude* between buyer and seller while sales are being made, and that persistent interference by any Inspector or Measurer shall be deemed a sufficient cause for the revocation of his certificate.

*Resolved*, That after an Inspector has received his instructions from both buyer and seller given together, he shall pay no attention to any different instructions or suggestions from either party given singly.

*Resolved*, That the buyers and sellers of lumber in Chicago market *pledge themselves* to employ the Inspectors and Measurers that obtain certificates from the Lumber Inspection Committee, and none others, when possible to obtain them.

*Resolved*, That Jesse Spaulding, C. B. White, Malcolm McDonald, R. K. Bickford, and John Cortis, are hereby constituted an advisory committee to the committee on lumber under the name of the Lumber Inspector Committee, whose duty it shall be to examine applicants, and recommend to the first named committee such persons as shall prove to be competent Inspectors or Measurers of lumber, and such committee shall then appoint such persons to be Inspectors or Measurers of lumber, under the foregoing rule in this market. A majority of said Lumber Inspector Committee shall be sufficient to grant a recommendation, and also have power to recommend a revocation of such license or certificate, upon sufficient reason apparent thereto.

Said Lumber Inspector Committee, or a majority of them, shall also act as a Reference Committee, to whom all differences and complaints may be referred, subject, however, to the final decision of the Committee on Lumber.

Should any vacancy in the Lumber Inspector Committee arise from death, resignation or otherwise, it shall be filled by the Directors of the Board of Trade, on the recommendation of five dealers in lumber, together with the remaining members of the Lumber Inspector Committee.

## RATES OF INSPECTION.

ADOPTED BY THE BOARD OF TRADE MARCH 29, 1866

### GRAIN.

For Inspecting Grain from Cars, per car.....	\$ .25
For Inspecting Grain aboard of Vessels, per M. bushels..	.50
For Inspecting Grain from Canal Boat, per boat.....	1.25
For Inspecting Grain in Sacks, per bushel.....	.00 $\frac{1}{4}$
For Inspecting Grain into Sacks, per M. bushels.....	.50
For Inspecting Grain into Cars in bulk, per car.....	.50

### FISH.

For Inspecting, Unheading, Heading, Weighing, Repacking, Brining and Branding, per barrel.....	.20
For Inspecting, Unheading, Heading, Weighing, Repacking, Brining, per half barrel.....	.10
For Inspecting, Unheading, Heading, Weighing, Repacking, Brining, per barrel.....	.05
For each extra hoop.....	.02
For each extra head.....	.25

### FLOUR.

For Inspecting and Shipping, per barrel.....	.25
For Inspecting, per barrel.....	.02

### PROVISIONS.

For Inspecting Beef and Pork, per barrel.....	1.00
For Inspecting Bulk Meats, per M. pounds.....	.25
For Inspecting Lard, Tallow and Grease, per barrel.....	.05

### HIGHWINES.

For Inspecting, per barrel.....	.08
---------------------------------	-----

## WEIGHMASTER'S TARIFF OF PRICES.

---

All Grain, Provisions, and other Produce, weighed by the wagon load, on large team scales, will be charged by the load . . . . . \$ .10

Sundries, weighed on platform and beam scales, and handled at the expense of the Weighmaster, will be charged as follows :

Grain, Seed, Beans, Pulse and Potatoes, in bags, per bag . . . . .	.02
Sugar, in boxes and hogsheads, per 100 pounds . . . . .	.02
Salt, in sacks, per 100 pounds . . . . .	.02
Tobacco, in boxes and hogsheads, per 100 pounds . . . . .	.02
Pig Iron and Lead, per 100 pounds . . . . .	.02
Bulk Meats . . . . .	.02
Broom Corn, in lots of 50, per bale . . . . .	.06
Broom Corn, in lots of less . . . . .	.07
Wool, per sack, in lots of 50 or more . . . . .	.07
Wool, per sack, in lots of less . . . . .	.08
Coal, per ton . . . . .	.06
Lard, Tallow, Grease and Stearine, in lots of 75 or more . . . . .	.05
Lard, Tallow, Grease and Stearine, in lots of 50 or more . . . . .	.06
Lard, Tallow, Grease and Stearine, in lots of 25 or more . . . . .	.07
Butter and Lard, in kegs . . . . .	.04
Dressed Hogs, each . . . . .	.04
Salt, Sugar, Dried Fruit, Beans, Potatoes, Hominy, Grits, etc., per barrel . . . .	.04

The United States Government Stamp Tax will be charged on certificate, in addition to the above rates.

## FLOUR.

The movement in Flour during the past year shows a slight falling off, as compared with that of the year previous. The receipts for the twelve months ending March 31st, 1868, were 1,648,906 barrels; manufactured by city millers during the same time 609,606 barrels; stock on hand March 31st, 1867, 62,693 barrels, making a total of 2,321,205 barrels. Of this amount 1,917,925 barrels were exported, and 328,855 barrels were consumed in the city, leaving 74,925 barrels as the stock on hand at the close of the fiscal year ending March 31st, 1868.

The receipts from the interior, 1,648,906 barrels, show a marked decrease as compared with those of the year previous. This is due to the great drouth last fall, which dried up many of the streams, and caused a very low stage of water in the principal rivers, thus preventing the mills from working. Lake freights were also low, enabling the eastern millers to place wheat at their doors at a lower price than the flour could be transported for. The shipments of flour also show a corresponding falling off for the same causes. The business on the whole was not so remunerative to either manufacturers or operators during the past year, as the one previous, though the yield was better in quantity and quality. Our city millers did better than their country brethren, and they have spared no pains to keep up the reputation already achieved by them.

WHEAT.

From a careful perusal of our tables, it will be seen that the receipts of Wheat for the fiscal year, ending March 31st, 1868, were 13,483,261 bushels, against 12,268,287 bushels for the year previous, an increase of over 1,200,000 bushels. The shipments show a falling off to the extent of a little over a quarter of a million bushels. The crop of 1867 did not come up to the anticipations of the trade in point of yield, but in quality it was very satisfactory. Our city still continues to be the source of supply for Indiana, Ohio and Pennsylvania, where the Wheat crop is gradually dying out.

Receipts, at Chicago, of the last thirteen Crops of Wheat.

## CORN.

The movement in Corn during the fiscal year ending March 31st, 1868, shows a startling decrease as compared with that of the previous year. As will be seen from our tables of receipts and shipments, the imports were 25,223,468 bushels for 1867-8, against 33,929,632 bushels for 1866-7. This great falling off is entirely to be attributed to the partial failure of the crop of 1866, in consequence of the frost and heavy rains in the fall of that year. The crop of 1867 was not so heavy as expected. The spring rains and high waters in the lower parts of this State, Indiana and Iowa, washed out a good deal of the corn that had just been planted. The summer and fall months were, however, exceedingly propitious. The weather was dry and clear until very late in the fall, with perfect immunity from early frosts. The receipts of new corn during the past winter were larger than ever before, and in point of quality, very satisfactory. The shipments show also a proportionate decrease as compared with those of 1866-7.

*Receipts at Chicago of the last Thirteen Crops of Corn.*

## OATS.

As will be seen from our tables of receipts and shipments, the movement in Oats, for the fiscal year ending March 31st, 1868, shows a gratifying increase as compared with that of the year previous. The receipts by rail were 12,659,645 bushels, against 10,713,981 bushels for the years 1866-67, an increase of nearly two millions of bushels. The crop of 1867 was large in yield and extremely satisfactory in point of quality. The shipments during the fiscal year were, 10,309,063 bushels, against 9,564,223 bushels in the year ending March 31st, 1867, an increase of nearly 800,000 bushels.

\* The crop of 1867 was of so generally good a character that, although receipts were as before inspected No. 1 and No. 2, no quotable difference was made between these grades by purchasers.

RYE.

The movement in Rye shows a marked falling off. The receipts for the fiscal year ending March 31st, 1868, were 1,276,614 bushels, against 1,683,925 bushels for the year previous; a decrease of over 500,000 bushels. The crop of 1867 was not so large as was expected, though in point of quality it was quite satisfactory. The high price of wheaten flour caused a steady milling demand for Rye throughout the year, and as soon as it became known that the supply was short, the market rapidly advanced.

BARLEY.

The high prices realized for Barley during the winter of 1866-7 caused an increased breadth to be sown in in the spring of 1867. The crop was, however, varied. In the East it was, comparatively speaking, a failure: while in the West it was very satisfactory, both in yield and quality. The clear, dry weather, during the fall of last year, enabled the farmers in the West to harvest their Barley, free from stalns, must, or mildew. The deliveries during the past winter were much brighter than for many seasons previous. As will be seen from our tables of receipts and shipments, the imports were 2,300,178 bushels for 1867-8, against 1,834,418 bushels for 1866-7, an increase of nearly half a million. From the East there was a good, steady, consumptive demand throughout the season, as will be seen by the correspondingly large increase in the shipments. Some two or three cargoes of Canada Barley were received here *via* rail from Toledo. These were taken by our city brewers, who make a specialty in pale ale.

THE PROVISION TRADE.

Our City still continues to take the lead in the Provision Trade of the Country. As will be seen from the following statistics, the packing for the season of 1867-8, according to the official figures of the Pork Packers' Association, was 796,225 live and dressed, against 635,732 for the season previous—an increase of 160,493. The business in the aggregate was a satisfactory one, though in the early part of the season some losses were entailed. About the beginning of the present year it became apparent to all reflecting operators that the yield would not equal in pounds the crop of 1866-7 as the farmers preferred to sell their corn rather than feed it to the hogs, and the latter were sent to market in a half fattened condition. The consequence was, an active speculative demand for all descriptions of product took place, and prices rapidly advanced. The consumptive demand was steady throughout, and during the Winter and early Spring months the exports of Lard and Bacon were quite large—showing a material increase over those of the season previous.

HOGS AND HOG PRODUCT.

The following table shows the receipts and shipments of Hogs at Chicago during the past ten years.

Receipts and Shipments of Hogs for Ten Years.

NOTE.—It is generally conceded by Butter dealers that the "make of Butter" in the West, during the year just passed, was about two-thirds of the amount made during the preceding year. The competition between the express companies, inducing a low rate of freight, threw an unusually large proportion of Butter on the express lines; and as they do not keep an account of the tonnage of the different articles of merchandise passing over their lines, it is impossible to furnish the amount received and shipped by express. It was probably equal to the amount received and shipped as reported above.

## THE LUMBER TRADE.

The Lumber Trade continues to make gigantic strides each succeeding year, keeping pace with the growth of the city and the development of the Northwest. The receipts of Lumber for the fiscal year ending March 31st, 1868, were 882,661,770 feet, against 730,057,168 feet for the year previous. The shipments were 518,978,354 feet. The receipts of Shingles were 447,039,275, and the shipments 480,930,500. The increase in the latter over the former can in part be attributed to the fact that there is a large number of shingle factories in our city. These, in a great measure, help to meet the pressing demand from all parts of the South and West. The receipts of Lath were 146,846,280, and the shipments 70,587,194.

## HIGHWINES.

The amount of Highwines manufactured in Chicago during the past year was obtained from the Book of the Collector of Internal Revenue—the only source from which we have been able to obtain information.

DIRECT SHIPMENTS FROM CHICAGO TO LIVERPOOL.

The Shipmenis from Chicago to Liverpool direct, for the season of 1867-8, have been more than double the previous season, and there doubtless would have been a much greater quantity shipped direct, but for the unprecedented rise in the Western Provision Markets, during the latter part of the season large orders having been received here from Liverpool. The New York market having been more favorable for buyers, the parties here were unable to fill the orders at their limits.

*Statement of Provisions, etc., Shipped Direct from Chicago to Liverpool during the Season of 1867-8.*

ROUTE.	Packages.	Tons.
S. T. Webster's European Express Line, via New York.....	9,446	1,675
S. T. Webster's European Express Line, via Portland.....	13,512	2,954
TOTAL.....	22,958	4,619

The opening rate from Chicago to Liverpool was \$1.00 via Portland, and \$1.10 via New York, declining to 90 cents via Portland, closing at \$1.00 for 100 lbs., gold.

---

---

---

DECISION

OF THE

SUPREME COURT OF ILLINOIS,

IN THE CASE OF

JAMES PERLEY PAGE

*vs.*

THE BOARD OF TRADE OF THE CITY OF CHICAGO,

---

---

# OPINION.

---

At a Supreme Court, begun and held at Ottawa, on Tuesday, the 10th day of September, in the year of our Lord one thousand eight hundred and sixty-seven, within and for the Third Grand Division of the State of Illinois : Present, SIDNEY BREESE, Chief Justice ; CHARLES B. LAWRENCE, Associate Justice ; PINKNEY H. WALKER, Associate Justice.

THE PEOPLE *ex rel.* JAMES P. PAGE,

*vs.*

THE BOARD OF TRADE OF THE CITY OF CHICAGO.

APPEAL from Cook.

Opinion by LAWRENCE, Justice :

This was an application by Page to the Circuit Court of Cook County, for a mandamus to compel the Board of Trade of Chicago to restore him to full membership, from the privilege of which he had been suspended. The Court dismissed the petition, and the relator appealed.

It appears by the petition, that on the 14th of May, 1867, Page sold to Stevers and Brown, also members of the Board of Trade, a quantity of corn, deliverable at any time thereafter during the month ; that on the 21st of May, corn having advanced in price, he offered to pay the purchasers \$500.00 to rescind the contract ; that they accepted his offer, and on the same day he paid them \$100.00 in money, and executed to them his promissory note for \$400.00, payable on demand ; that Page, failing to pay when requested, Stevers and Brown made a complaint to the Board of Directors ; that Page appeared, and admitted the indebtedness, but said he was unable to pay ; and thereupon the Board made an order in accordance with the 5th by-law, suspending him from the privileges of the Board.

All the authorities on this subject unite in saying that corporations have an inherent power of disfranchisement for either of three causes : 1st. For offences

having no immediate relation to a member's corporate duty, but of so infamous a nature as to render him unfit for the society of honest men. 2d. For an offence against a member's duty as a corporator ; and, 3d. For offences compounded of the two.

The power to expel for these causes is manifestly essential to the healthful existence of the corporate body, and does not depend on a specific grant. But in the case before us, the power of expulsion does not rest merely on these general principles. The 6th section of the Charter of the Board of Trade provides that "Said corporation shall have the right to admit or expel such persons as they may see fit, in manner to be prescribed by the rules, regulations or by-laws thereof." Here is a specific grant of power, in terms so general that they seem to leave the causes of disfranchisement at the discretion of the corporation, subject only to the one limitation that the proceeding shall follow the "rules, regulations or by-laws." Notwithstanding the generality of this language, however, it is doubtless true, as insisted by the counsel for appellant, that the discretion here granted is not purely arbitrary, but can be exercised only for some just and reasonable cause. It would hardly be contended, for example, that a by-law would be valid which should seek to disfranchise members unless they would attend a particular church, or send their children to a particular school. These would be subjects so utterly aloof from the objects for which the corporation was created, that we cannot suppose the Legislature intended to clothe it with the right of controlling the action of its members in these matters.

The question is, then, does the by-law under which the relator was expelled fall within the category of just and reasonable regulations?

That by-law is as follows :

"In case any member of the Association, having made any business contract, either written or verbal, and failing to comply promptly with the terms of such contract, shall, upon the representations of an aggrieved member to the Board of Directors, accompanied with satisfactory evidence of the facts, be by them suspended from all privileges of membership in the Association until such contract is equitably or satisfactorily arranged or settled, when he may be restored to membership ; and it shall be the duty of the Board of Directors to be caused to be publicly announced the suspension or restoration of any member under this rule."

The counsel for appellant contend that this by-law is unjust and unreasonable, and beyond the power of the corporation to enact.

One of the objects for which the Board of Trade was created, undoubtedly was to promote a high standard of commercial honor and commercial credit in the City of Chicago, by securing among the members of the Board a prompt discharge of their pecuniary obligations, contracted in their dealings with each other, without a resort to the expensive and dilatory procedure of a court of law. In order to accomplish this, the Charter authorizes the Board to create within itself tribunals of reference and arbitration, by whose decision the members shall be bound ; but

it does not confine the Board to the use of these means for the attainment of these objects. It expressly gives the power of expulsion, and under that power the corporation has adopted this by-law, providing that if a member fails to comply with a business contract made with another member, he shall be expelled. This is somewhat different from the adjustment of disputes which are properly referable to the Committees of Reference and Arbitration. It applies to cases of non-compliance with contracts about which there is no dispute necessary to be referred to one of these committees, and there was none in the present case. It certainly cannot be said that this rule was not germane to the purposes for which the corporation was created. In our judgment, though it might sometimes operate harshly, it is well adapted to secure the object we have above named, and preserve the high character and credit of the Board. That a corporation, purely commercial in its character, would soon cease to be respected or respectable, if it tolerated among its members a violation of an undisputed contract, is a proposition too plain for argument. Perhaps the rule would have been better if it had allowed more discretion to the Board of Directors, to be exercised in cases of misfortune and not of fault. But this does not touch the question of power, and is a matter wholly for the decision of the corporation itself. That the rule, even in its present form, is either unreasonable or unjust, we can not hold. Even if there had been no express grant in the Charter of a power of expulsion, we should be inclined to hold that a prompt performance, by the members, of their contracts with each other, was so important to the well-being of such a corporation as this, that a member, failing in this regard, was guilty of a breach of his duty as a corporator; and if the corporation thought proper to pass a by-law making such breach of duty a ground of disfranchisement, the act would have to be sustained as an exercise of its inherent power under the rules of the common law.

The remarks of counsel as to the alleged hardship of the rule, do not seem to be applicable in the present case. It is apparent that, when the relator made this contract, he knew he could not perform it in case the price of corn should rise. There was no misfortune in the case except that the market took a different direction from what he had anticipated. He knew what the rules of the Board were. By becoming a member he had voluntarily submitted himself to their operation, and by implication agreed to be bound by them, so far as they were in the power of the Board to make. He knew when he entered into this contract that he could perform it only by accident and what was the penalty of non-performance. There is, therefore, no special hardship.

Counsel for appellant have quoted several cases as being much in point, to which it is proper to refer. The first is that of *Rex vs. The Mayor of Liverpool*, 2 Burr, 732. Joseph Clegg, having been expelled from the Common Council of the City of Liverpool, applied to the King's Bench for a mandamus to restore him. The return of the Mayor showed, as cause for the expulsion, that Clegg had become a bankrupt. The Court held the cause insufficient. The difference in principle between that case and the one at bar, is palpable. The City of

Liverpool was a municipal corporation, created for purposes wholly different from those of this Board of Trade. There is hardly a point of resemblance between the two, and a cause which would render a person an improper member of the one, might not affect him in reference to the other. We should not hesitate in holding that bankruptcy was no ground for disfranchising a member of a municipal Common Council, however grave we may deem it as a disqualification for a Board of Trade.

The case of *The Commonwealth vs. St. Patrick's Benevolent Society*, 2 Binney, 448, is also cited. There one member of the Society had villified a fellow member, in violation of a by-law, and had been expelled. The Society was created for the purposes of aiding its members when in need, and of relieving distressed Irishmen emigrating to the United States. Chief Justice Tilghman, delivering the opinion of the Court, said :

" My opinion will be founded on the great and simple point on which the case turns. Is this by-law necessary for the good government and support of the affairs of the corporation ? I cannot think that it is. On mature reflection, it appears to me that, without an express power in the charter, no man can be disfranchised unless he has been guilty of some offence which either effects the interests or good government of the corporation, or is indictable by the law of the land."

The Court thereupon awarded a peremptory mandamus, restoring the relator to the privileges of membership. It will be observed, this decision is placed upon the ground that the by-law had no connection with the objects of the corporation.

The decision in the case of *The People vs. The Medical Society of the County of Erie*, 24 Barb. 571, rests on the same ground. The Court there held that a Society chartered merely for the promotion of medical science had no right to decide what fees its members should charge for their professional services, and to expel a member who had disregarded such a regulation. The Court ask : " Can it be said, with any plausibility, that the establishment of a tariff of prices for medical services was a legitimate object of the creation of the corporation, or that it was necessary, or, in any degree, contributed to the accomplishment of the purposes or objects for which the law authorized the corporation ? "

In these, and indeed in all the cases, the controlling consideration is, the nature and purpose of the corporation. If a by-law is clearly alien to its nature, and a departure from its purpose, it will be held *ultra vires* and void ; if not, and it is consistent with the general laws of the land, it will be valid.

It is stated in the petition, though not urged in the argument for appellant, that the relator had no corn when he made the contract with Stevers and Brown for future delivery, and that the contract was therefore void under the act of 1867, concerning " Warehousemen." The record, however, shows that no question of this character was made before the Board of Directors, when the matter was heard. On the contrary, the relator distinctly admitted his indebtedness, and neither avered nor offered to prove that his note had been given in

settlement of a contract prohibited by the act in question. He cannot, therefore, now complain of the action of the Board as violative of that law, or ask us to set aside their action on that ground.

He prays a mandamus, because, as he claims, the action of the Board was illegal. In deciding whether it was so, we must take his case as he made it before the Board. In this view, it is unnecessary to decide on the constitutionality of the law, which has been briefly argued by counsel for appellee.

The judgment must be affirmed.

*Judgment affirmed.*

---

I, WOODBURY M. TAYLOR, Clerk of the Supreme Court of the State of Illinois, do hereby certify, that the foregoing is a true copy of the final Opinion of the said Supreme Court in the above entitled cause, of record in my office.

IN TESTIMONY WHEREOF, I have set my hand and affixed the seal  
[SEAL.] of the said Supreme Court, at Ottawa, this 12th day of May, in the year of our Lord, one thousand eight hundred and sixty-eight.

W. M. TAYLOR,  
*Clerk of the Supreme Court.*

## PREAMBLE.

---

In order to promote the efficiency and extend the usefulness of the various Boards of Trade, Chambers of Commerce, and other chartered bodies, organized for general commercial purposes, in the United States; in order to secure unity and harmony of action in reference to commercial usages, customs and laws, and especially in order to secure the proper consideration of questions pertaining to the financial, commercial, and industrial interests of the country at large, this Association' on this fifth day of June, 1868, is hereby formed by delegates, now in session in the City of Philadelphia, representing the following named commercial organizations, to wit:

Albany, N. Y., Board of Trade; Baltimore Board of Trade; Boston Board of Trade; Boston Corn Exchange; Buffalo, N. Y., Board of Trade; Charleston, S. C., Board of Trade; Chicago Board of Trade; Cincinnati Chamber of Commerce; Cleveland, O., Board of Trade; Denver, Col., Board of Trade; Detroit, Mich., Board of Trade; Dubuque, Iowa, Produce Exchange; Louisville, Ky., Board of Trade; Milwaukee Chamber of Commerce; Newark, N. J., Board of Trade; New Orleans Chamber of Commerce; New York Produce Exchange; New York Chamber of Commerce; Oswego, N. Y., Board of Trade; Peoria, Ill., Merchants' Exchange; Philadelphia Board of Trade; Philadelphia Commercial Exchange; Pittsburg Board of Trade; Portland, Maine, Board of Trade; Providence, R. I., Board of Trade; Richmond, Va., Chamber of Commerce; St. Louis Board of Trade; St. Louis Union Merchants' Exchange; St. Paul, Minn., Chamber of Commerce; Toledo, Ohio, Board of Trade; Troy, N. Y., Board of Trade; Wilmington, Del., Board of Trade, and the following Constitution is adopted:

# CONSTITUTION

OF THE

## NATIONAL BOARD OF TRADE.

---

### ARTICLE I.

SEC. 1. This Association shall be designated the NATIONAL BOARD OF TRADE.

### ARTICLE II.

SEC. 1. Every local Board of Trade, Chamber of Commerce, or other body organized for general commercial, and not for special or private purposes, and duly chartered under State or National laws, shall be entitled to membership in this Association, on the approval of two-thirds of the bodies represented at any meeting of the Association, and shall be accorded the following representation: Each such Association having fifty members who have the right to vote therein, shall be entitled to one delegate; having one hundred members, two delegates; having three hundred members, three delegates; having five hundred members, four delegates; and for each additional five hundred members, one additional delegate.

SEC. 2. Delegates shall be selected by the local organizations in such manner and for such term of not less than one year, as each may see fit. At each meeting of the Board they shall present credentials under the seal from the Secretaries of their respective constituencies; these credentials shall certify the number of members authorized to vote then connected with the body which is claiming representation, and which may present or may have a copy of its charter on file in this Board.

## ARTICLE III.

SEC. 1. Each delegate shall be entitled to one vote in person, but no voting by proxy shall be allowed. All votes except for election of officers, shall be *viva voce*. Any delegate may demand a division of the house, and on the demand of three or more delegates, a call of the yeas and nays shall be had, the result of the same to be duly recorded.

## ARTICLE IV.

SEC. 1. The administration of the affairs of this Board shall be vested in a President and fourteen Vice Presidents, who shall be elected at the annual meeting, by ballot, on a majority of all the votes cast, and who shall serve until their successors are chosen. Their election shall be the first business in order. They shall be constituted and known as an Executive Council, and five of their number shall be a quorum for the transaction of business. In the absence or disability of the President, a Vice President, to be designated by his associates, shall serve.

SEC. 2. It shall be the duty of the Executive Council, immediately after their election, to select a Secretary and a Treasurer (neither of whom shall be of their own number), who shall hold office for such time, and who shall receive such compensation as the Council may determine.

SEC. 3. The offices of the Secretary and Treasurer may be located at such places as the Council shall determine.

SEC. 4. Special meetings of the Council shall be held on the call of seven members thereof, at such place as they may designate, on twenty days' notice to be given by the Secretary.

SEC. 5. In case of the removal, resignation, or death of any member of the Council, his place for the unexpired term, shall be promptly filled by the constituent association of which he was a member.

## ARTICLE V.

SEC. 1. It shall be the duty of the Executive Council:

1st. To provide for full and accurate records of the proceedings of the Board and of its own meetings.

2d. To submit to each annual meeting a report of the doings of the Board and of its own official acts, as well as a statement of what new or unfinished business may require attention.

3d. To make full statement concerning the finances of the Board to the annual meetings, and to other meetings, when called on to do so.

4th. To apportion to each constituent body, its assessment for the expenses of the Board, as provided elsewhere.

5th. To make such recommendations as it may deem to be necessary for the welfare and to promote the objects of the Board.

SEC. 2. The Secretary shall conduct the official correspondence, and shall make and have charge of the records of the Board and of the Executive Council.

SEC. 3. The Treasurer shall give such security as the Executive Council may require, receive and account for all moneys belonging to the Board, and collect assessments and fines, but he shall pay out money and dispose of the property of the Board only on a warrant of the Secretary, countersigned by the President.

## ARTICLE VI.

SEC. 1. A meeting of the National Board of Trade shall be held on the First Wednesday in December of each year, at such place as shall have been determined upon at a previous meeting, on the majority vote of all the constituent bodies represented.

SEC. 2. Special meetings may be held on the call of eight members of the Executive Council, at such place as they may designate.

SEC. 3. The attendance of forty delegates shall constitute a quorum.

SEC. 4. Notice of the annual or other meetings shall be served by the Secretary on each constituent body at least thirty days before the time appointed for assembling. The notice shall state the objects of the meeting, and the questions to be considered.

SEC. 5. A Meeting of the Executive Council shall be held on the day preceding the day of any meeting of the Board, and at such other times as may be provided in its By-Laws.

## ARTICLE VII.

SEC. 1. The expenses of the Board shall be provided for by an assessment to be made by the Executive Council on each constituent body, according to the ratio of its officially reported membership.

## ARTICLE VIII.

SEC. 1. Questions or resolutions, except those which involve points of order, or refer to matters of courtesy, can be submitted only by the constituent bodies of the Board; and when any constituent body shall desire to present a subject for the consideration of the Board, it shall do so in a written paper to be placed in the hands of the Secretary at least forty days previous to the annual or special meeting at which it is to be considered: *Provided, however,* That any subject not thus submitted may be considered and acted upon by a vote of two-thirds of the delegates present.

## ARTICLE IX.

SEC. 1. Any constituent body charged with a violation of the laws of this Board may, after formal complaint thereof in writing, on a vote of two-thirds of all the delegates of the other bodies represented herein, be expelled; but it shall not be exempted from the payment of assessments levied for the year current.

SEC. 2. Any constituent body may withdraw from membership in the Board on submitting a formal request to that effect at an annual meeting, and on full payment of all dues.

## ARTICLE X.

SEC. 1. This Constitution may be amended at an annual meeting, on a vote of two-thirds of the delegates present; notice of the proposed amendment having been first submitted to the Secretary by a constituent body, at least sixty days previous to the meeting at which the same is to be considered, and transmitted by the Secretary in circular copies to each constituent body at least thirty days before said meeting.

## ARTICLE XI.

SEC. 1. This meeting of delegates, called in accordance with the plan of preliminary organization adopted by the Commercial Convention held in Boston on the 5th day of February last, shall be regarded as the first meeting of the National Board of Trade, and is hereby empowered to choose officers, to serve until their successors shall be elected, and to act upon all papers and resolutions laid before it, the same to be considered as having been submitted in the form and manner required by this Constitution.
